CONNECTION MOVES US ALL

There is nothing more human than the run — it connects us to the energy that runs through our world and makes us feel more alive.

We connect to our deepest thoughts and truest selves, to new experiences, and to others to feel part of something bigger.

This season, we're unleashing an infectious energy that connects us and powers us to move and be moved, inspires us to go further to create more moments, and challenges us to discover new paths.

Because, after all, connection moves us all.

Let's run there.

NO TWO RUNNERS ALIKE

Run Signature helps you pick the right shoes. We start by assessing the way your body runs — this determines your need for support — then empowers you with your choice of running experience. This combination helps us make a recommendation tailored to you. Your perfect fit. Let's run there.

A SHOE FOR EVERY RUN. A SHOE FOR ALL WHO RUN.

SEASONAL COLOR

We are harnessing the power of color to connect with our consumer, to distinguish our brand, and to amplify our product. Our color designers are experts at capturing emotions and creating connections through color. They carefully select hues that speak to your inner feelings, desires, and aspirations. Every combination is crafted to evoke the right mood, making sure the colors resonate with who you are and how you want to feel. Whether you want to stand out, pump up, or kick back, we've got a color palette to match your every mood and every move. Choose your adventure.

RUNNING RESPONSIBLY

AT BROOKS, OUR GOALS ARE SIMPLE: EVERYONE WHO WANTS TO RUN IS WELCOME TO RUN, AND EVERYONE WHO RUNS HAS A PLACE TO DO IT.

We're excited to share our key highlights toward some of our Climate Action and Sustainable Consumption objectives this season.

As we create new gear and run our global business, we also want to minimize our impact on the planet — so we are limiting our reliance on non-renewable resources through more sustainable materialization and reduced waste.

One of the ways we reduce Brooks' carbon footprint is by sourcing recycled materials made from post-consumer waste products and post-industrial waste materials. Additionally, bio-based content is a source of greenhouse gas (GHG) emissions reductions, which also aids in reducing our carbon footprint.

NEW SPRING 2026 FOOTWEAR STYLES AVOIDED 3,159 METRIC TONS OF GREENHOUSE GAS EMISSIONS BY USING RECYCLED AND BIO-BASED MATERIALS, EQUIVALENT TO 4,946,555 MILES DRIVEN BY AN AVERAGE GASOLINE-POWERED PASSENGER VEHICLE.

Our ongoing, evergreen People and Planet Path guides our efforts around five priorities:

1. DIVERSITY, EQUITY, & INCLUSION

Reduce barriers to participation in the running industry, on the run, and in the running community

2. COMMUNITY IMPACT

Create partnerships to advance health and well-being in our communities and make the run open to all

3. RESPONSIBLE SOURCING

Build partnerships with factories that share our objectives to trace our supply chain, respect human rights, and strengthen environmental management

4. CLIMATE ACTION

Achieve science-based targets to reach net-zero greenhouse gas emissions by 2040

5. SUSTAINABLE CONSUMPTION

Convert to recycled or bio-based materials, eliminate footwear manufacturing material waste sent to landfill or incineration, and launch a circular product

SPRING 2026 FOOTWEAR KEY ACHIEVEMENTS

- On average, 30% of each product is made from recycled or bio-based material.
- DNA TUNED, which is featured in all Glycerin styles, contains 18% bio-based content.
- All styles this season have rubber with 14% recycled content.
- All three Glycerin styles have different amounts of recycled and bio-based content in the sockliners, ranging from 20-50%.
- All sockliner top cloths across all styles are dope-dyed, which is a less resource-intensive dyeing process.
- Achieved 79% pattern efficiency in knitting of the Glycerin Flex upper. Higher pattern efficiency means less waste sent to landfills!

Additionally, 11.8% of all electricity used by our Tier 1 final assembly factories is from renewable resources.

NEW

GLYCERIN MAX 2

Run on autopilot and experience more memorable moments as you land with max softness and spring forward with ultimate ease.

Expertly tuned cushion

Featuring nitro-infused DNA TUNED foam, combining large cells in the heel for airy landings and small cells in the forefoot for electric toe-offs. No added layers. One seamlessly tuned cushion.

Effortless transitions

Our thoughtfully crafted GlideRoll™ Rocker features dramatically sculpted bevel and toe spring geometries designed for an optimal and effortless heel-to-toe transition.

Stacked to the max

A boundary-pushing amount of DNA TUNED helps protect your body from impact and will leave your legs feeling fresh.

What's New

- New and improved upper

Additional Benefits

- Triple jacquard air mesh that provides plush comfort around the foot and supportive midfoot adjustability.

RUN & WALK

Men's

\$105/\$210

NEW

GLYCERIN FLEX*

Be in control of the run like never before with innovative flexible cushioning working as an extension of the body.

Unleash your feet

The innovative smooth ride offers carefully crafted flexibility, from midfoot to toe-off, to feel the best parts of the run and support to go the distance. The strategically placed asymmetrical midfoot flex groove combined with the podular lateral forefoot flexibility work together to provide flexibility and support where you need it.

Expertly tuned cushion

Featuring DNA TUNED with tuned nitrogen infusion for plush landings and electric toe-offs to keep you running with ease.

Comfortable, flexible fit

New engineered flat knit upper provides enhanced comfort and breathability that's flexible and moves with your foot.

Additional Benefits

- Strategic flex grooves are designed for optimal flexibility and a smooth ride from landing to toe-off.

*Please note: images do not reflect updated two-piece tongue construction. Though not final, most details aside from the tongue represent the overall design of this shoe.

RUN & WALK

Men's

\$95/\$190 **GHOST MAX 3**

Soft and protective max cushion with effortless heel-to-toe transition.

Protective cushioning

A high stack of nitrogen-infused DNA LOFT v3 cushioning helps decrease underfoot pressure for comfort and protection.

Easy, assisted transitions

A low offset combined with a GlideRoll™ Rocker actively assist heel-to-toe transitions to help your movements feel effortless.

Stable ride

A broad base provides inherent stability that won't interfere with a neutral stride.

Women's

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Unique construction adds more volume to the shoe for a more inclusive fit that accommodates orthotics.
- Engineered mesh optimizes breathability.
- Combination of cushioning, GlideRoll™ Rocker, and lower offset can help those with plantar fasciitis.
- Designed to reduce energy absorption in foot soft tissues, helping those with arthritis.

WALKING

\$100/\$200 **GHOST MAX SE**

A soft mesh and suede upper meets high-stacked cushion for maximum comfort.

Suede upper

A soft mesh upper featuring suede details offers everyday wearability.

Protective cushioning

A high stack of nitrogen-infused DNA LOFT v3 midsole foam delivers soft, smooth comfort for a protective feel and easy landings.

Easy, assisted transitions

GlideRoll™ Rocker actively promotes smooth heel-to-toe transitions for an effortless feeling as you move.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

CarbonNeutral.com

- GlideRoll™ Rocker
- Linear last construction adds volume that creates a more inclusive fit. Great for orthotics.

RUN & WALK

Men's

\$100/\$200

GHOST 17 GTX

Embrace the run, rain or shine, with the perfect balance of cushion and comfort.

Waterproof gore-tex® technology

GORE-TEX® Invisible Fit is bonded directly to the upper for a light, flexible fit that provides breathable protection from the elements.

Soft and responsive cushioning

Premium nitrogen-infused DNA LOFT v3 cushioning delivers lightweight softness and feel-good comfort, mile after mile.

Smooth transitions

The newly designed midsole combines with precise flex grooves to promote added flow toward toe-off. The new wet traction outsole also helps ensure each step is secure on wet surfaces.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- 3 mm of added DNA LOFT v3 cushion in the forefoot, 1 mm of added cushion in the heel for added comfort, and a 10 mm offset.
- Wet traction outsole for enhanced traction on wet sidewalks.

RUN

\$125/\$250

HYPERION MAX 3

Run faster to maximize training.

Fast is fun

A high-stack combination of 100% PEBA DNA GOLD and DNA FLASH v2 cushioning, paired with the SpeedVault plate, creates game-changing protection, propulsion, and recovery.

Quick and easy assisted transitions

The curved geometry of the RapidRoll Rocker actively assists heel-to-toe transitions for quick turnover.

Airy fit

The upper locks down to provide security at any speed, while its lightweight, breathable mesh provides comfort during long runs and hard workouts.

Additional Benefits

- 100% PEBA DNA GOLD cushioning
- Nylon SpeedVault plate
- Engineered mesh with comfortable knit collar and tongue
- 6 mm offset

LAUNCH 12

Say hello to this authentic running shoe that is supported, fun, and focused. It has everything you need and nothing you don't.

Design utility

Every detail in the upper design, including the airy mesh material, is crafted to deliver a comfortable fit while colorfully celebrating the reliable, fun features of the shoe.

Fast is fun

Run boundlessly with lightweight, nitrogen-infused DNA FLASH cushioning, plus responsive DNA FLASH v2 cushioning in the forefoot, to help you push off the ground.

Support each step

The cushioning hugs your foot to help stabilize landings, and the RoadTack rubber outsole provides grip and traction for forward turnover, so you feel ready to run any pace, any time.

RACING

\$150/\$300

HYPERION ELITE 5

Athlete-tested innovation for next-level racing speed.

Unisex

Lighter than air

100% PEBA DNA GOLD cushioning is the lightest, softest, and highest energy return foam Brooks has ever made.

Tuned propulsion plate

The carbon fiber SpeedVault+ plate by Arris® is size-customized for each shoe to decrease weight and help optimize its bending stiffness.

Race-day fit

Updated upper removes all unnecessary weight for a near-invisible fit. Silicone lace-sheaths and full TPU pressed upper seamlessly connect the shoe to the body.

Additional Benefits

- 100% PEBA DNA GOLD cushioning
- SpeedTack lightweight rubber outsole
- Compared to DNA FLASH v2, DNA GOLD is: 11% Lighter, 14% Greater Energy Return, and 25% more flexible.
- The Arris® carbon fiber SpeedVault+ plate is near-zero waste.
- Des Linden directly contributed to development and testing.

NEW

HYPERION ELITE LD 2

Athlete-tested, ultra lightweight innovation for next-level racing, from the 5k to the 10k.

Unisex

Lighter than air

Feel distraction-free as you step onto nitrogen-infused, 100% PEBA DNA GOLD cushioning: the lightest, softest, and highest energy return foam Brooks has ever made.

Optimized for speed

Nitrogen-infused foam and a Pebax spike plate that optimizes torsional rigidity are designed to go the distance, propelling you with extra power during mid-race surges or the final kick.

Invisibly connected

Our lightweight, tensile strength knit upper is built with an anatomical athlete last designed to seamlessly disappear on your foot and help you best any competitor on race day.

What's New

- 100% PEBA DNA GOLD cushioning
- Tensile-strength knit

Additional Benefits

- World Athletics-approved for competition use.
- Compared to DNA FLASH v2, DNA GOLD is: 11% Lighter, 14% Greater Energy Return, 25% more flexible

RACING

\$110/\$220 **NEW**

HYPERION ELITE MD 2

Athlete-tested innovation for next-level racing speed, from 400m to 1500m.

Unisex

Power boost

The meticulously engineered, inverted spike plate helps transfer your force on the track into maximized energy return, for propulsive turnover. Our unique plate design features a top-loaded carbon fiber plate and a bottom-loaded Pebax spike plate, which optimize bending stiffness and help give back the energy you transfer with each step, so you can get onto your toes for that final kick or mid-race surge.

Optimized for speed

100% PEBA DNA GOLD cushioning is the lightest, softest, and highest energy return foam Brooks has ever made. This nitrogen-infused foam, paired with the propulsive inverted spike plates, help optimize torsional rigidity, to push your speed limits.

Fully connected

Our 100% TPU woven upper is anatomically designed to create the ultimate, locked in fit for any speed on race day.

What's New

- 100% PEBA DNA GOLD cushioning
- Woven and knit upper

Additional Benefits

- World Athletics-approved for competition use.
- Compared to DNA FLASH v2, DNA GOLD is: 11% Lighter, 14% Greater Energy Return, 25% more flexible

WALKING

\$85/\$170 **ADDICTION GTS 15**

Soft, supportive,
and super protective.

Dynamic cushioning

Our DNA midsole technology delivers soft, adaptive cushioning that reduces impact on your joints as you move, for a protective feel all day long.

GuideRails™ holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess motion in check.

Roomy, comfortable fit

Unique forefoot construction accommodates orthotics and high-volume feet, while an engineered air-mesh upper and 3D FitPrint offer the perfect blend of stretch and structure for supreme comfort.

Additional Benefits

- One-piece outsole keeps the shoe from flexing too much, a benefit for some runners with pedorthic needs.

A composite image featuring a trail runner in the foreground and a hiker in the distance. The foreground runner is shown from the waist down, wearing a black and yellow athletic outfit, white socks, and yellow sneakers, running on a rocky trail. The background shows a hiker in a blue shirt and black shorts running along a grassy ridge. The scene is set against a backdrop of rugged mountains and a bright, hazy sky. A large, bold, white text overlay reads "TRAIL".

TRAIL

GHOST TRAIL

The most approachable of our trail products, the Ghost Trail provides the runner with confidence to venture off-road.

CASCADIA 19/GTX

The workhorse of our trail products, the Cascadia 19 and Cascadia 19 GTX offer a stable and adaptable ride, all-terrain traction, and protective comfort for any trail.

CALDERA 8

The Caldera 8 has plush cushioning for all-day comfort on lengthy trails.

CASCADIA ELITE

The athlete-validated Cascadia Elite is an ultra, plated racing shoe for competitive trail runners looking to race any distance.

TRAIL

NEW GHOST TRAIL

Discover new adventures with a trusted run companion that gives runners the confidence to venture off-road.

Reliable comfort

Experience the familiar, comfortable feel and ride of the fan-favorite Ghost with nitrogen-infused DNA LOFT v3, designed to help soften your landings.

All-terrain traction

The flexible Ghost-inspired outsole and geometry are upgraded with TrailTack Green rubber, which offers excellent traction on wet and dry surfaces. This outsole is enhanced for all-terrain traction with 3mm lugs, so you can run off-road with confidence.

Comfortable fit with durability

Our soft and breathable air mesh upper offers a comfortable and secure fit, with an added 3D printed layer in the toe cap and mudguard, for just enough protection and durability to venture off-road.

Additional Benefits

- TrailTack Green is made with 25% recycled content.

NEW

CASCADIA ELITE

An athlete-validated plated racing shoe for competitive trail runners looking to chase FKTs and podiums.

Unisex

Float across trails

Designed to sustain speed across the trail thanks to our carbon-infused Pebax SpeedVault+ trail plate sandwiched between layers of DNA GOLD 100% PEBA cushioning. This combination helps you stay controlled as you climb, propel effortless strides on flat surfaces, and enable a smooth and stable ride as you descend.

Vibram Megagrip Elite

Confidently traverse any terrain, wet or dry on race day, with a Vibram Megagrip Elite outsole, meticulously designed to provide superior grip on a variety of surfaces and to keep up with you as you push the pace. This superior outsole rubber underwent countless hours of testing to ensure optimization for elite performance.

Ultra performance fit

The dynamically secure MATRYX® engineered woven upper with Kevlar® fibers is designed to hold your foot in place while still being flexible. The PU-coated yarns offer a hydrophobic quality to help water and sweat escape from your shoe and eliminate added weight, so you can avoid distractions and focus on your race.

Additional Benefits

- Developed in the BlueLine Lab
- Carbon-infused Pebax SpeedVault+ trail plate
- Vibram Megagrip Elite outsole

TRAIL

\$85/\$170

CASCADIA 19

Confidence to explore any trail via a stable and adaptable ride.

Stable and adaptable ride

Updated Trail Adapt System utilizes a flexible and articulated Ballistic Rock Shield that integrates into a DNA LOFT v3 midsole for a stable and adaptable ride.

All-around traction

TrailTack Green outsole is made with 25% recycled content and offers all-terrain traction in wet and dry conditions, across various terrains.

Comfort and protection

Updated with more nitrogen-infused DNA LOFT v3 in the heel and forefoot, while its comfortable sandwich air mesh upper offers protection through 3D print overlays.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- The articulated Ballistic Rock Shield provides necessary protection without compromising flexibility or inhibiting heel-to-toe transitions.
- A durable toe cap and mudguard add upper protection.
- 2 mm of added cushion in the heel and 4 mm of added cushion in the forefoot for comfort and protection.
- Forefoot outsole allows for grip on uneven surfaces while the adaptable flex grooves allow for greater control.
- Improved Trail Adapt System
- Nitrogen-infused DNA LOFT v3 cushioning

TRAIL

CALDERA 8

\$85/\$190

Extra cushion for all-day comfort on trails.

Enduring comfort

Nitrogen-infused DNA LOFT v3 cushioning is super plush and stacked high to protect you from rough terrain for a comfortable long-distance trail run.

Smooth, adaptable ride

Raised sidewall offers added security and flexibility where you need it, while the widened base and added flex grooves in the outsole stabilize your landings over rough terrain.

Breathable performance upper

The elevated sandwich air mesh upper features strong TPEE fibers that are lightweight and durable, yet comfortable for the long haul.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Pull tab in heel for easy on/off
- TPU toecap to protect against obstacles.
- Padded, perforated tongue for comfort and breathability.
- 4 mm outsole lugs

GHOST LITE NO-SHOW SOCK 2-PACK

280496

Sizes

S-XL

Intro date

11/01/2022

Fabric

- 97% Nylon, 3% Spandex

More details

- Y-heel pocket provides locked-in fit at the heel
- Non-slip stitch pattern at the forefoot helps reduce friction inside the shoe
- Engineered knit enhances breathability at the top of the foot
- Heel tab prevents slipping on the run
- Sold in 2-pack
- Sock name and size stitched in for easy reference
- Sweat wicking

Second skin comfort.

Targeted cushioning

Cushioning at heel and toebox provide comfort on the run.

Arch support

A new stitching method delivers long-lasting, targeted arch support.

Odor resistant

Antimicrobial treatment helps prevent growth of odor-causing bacteria.

RUN-IN CREW SOCK 3-PACK **\$14/\$28**

280538

Sizes

S-XL

Intro date for new colors

01/01/2026

Fabric

- 96% Nylon, 3% Spandex, 1% Polyester

More details

- Y-heel pocket provides locked-in fit at the heel
- Sock name and size stitched in for easy reference
- Sweat wicking

NEW

RUN-IN QUARTER SOCK **\$12/\$24** 3-PACK

280542

Sizes

S-XL

Intro date

01/01/2026

Fabric

- 96% Nylon, 3% Spandex, 1% Polyester

More details

- Y-heel pocket provides locked-in fit at the heel
- Sock name and size stitched in for easy reference
- Sweat wicking

Technical running socks built for distraction-free comfort.

Run-ready fit

Wider arch construction and midfoot compression provide better hold and performance.

Breathable

Mesh zone on the top of the foot delivers ventilation and helps to decrease weight.

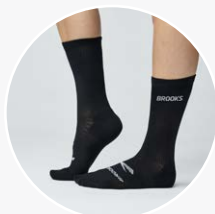

Targeted cushioning

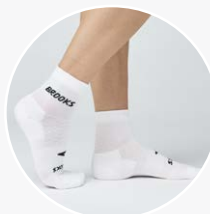

Heel and forefoot cushioning provide added comfort

TECH TALK

Specialized, high-tech features that set our shoes apart.

midsole

MIDSOLE FOAMS

DNA GOLD

DNA GOLD features nitrogen-infused 100% PEBA to create the lightest, softest, and highest energy return foam Brooks has ever made.

DNA FLASH v2

A fine-tuned nitrogen-infused midsole cushioning compound that is softer, lighter and has nearly 10% more energy return than the original DNA FLASH.

DNA FLASH

A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

DNA TUNED

The next nitro-generation of foam is here. DNA TUNED is infused with nitrogen and features dual-size cell technology – larger cells for softness and smaller cells for responsiveness.

DNA LOFT v3

We fine-tuned the nitrogen infusion process to amplify our soft cushion compound. DNA LOFT v3 boasts optimized softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

DNA LOFT v2

Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam, for a plush feel that won't bottom out or weigh you down.

DNA LOFT

A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT is our soft cushioning engineered for plush comfort without lost responsiveness or durability.

DNA

A responsive midsole technology that cushions each step and adapts to a runner's unique stride, weight, and speed.

MIDSOLE TECHNOLOGIES

Flex Grooves

Strategic etching underfoot that enhances flexibility, for an effortless forefoot ride without compromising the integrity of the cushioning.

SkyVault Trail Plate

A Pebax plate engineered to aid in uphill running. When a runner steps on the plate and pushes off in stride, the plate bends and snaps back into place, delivering propulsion and assistance as the runner climbs. And the unique shape provides flexibility on technical terrain, as well as stability and comfort on downhills.

SpeedVault Plate

Built for daily use, this Pebax Rnew® speed plate features optimized stiffness for training. It's designed to propel the runner forward and provide energy return.

SpeedVault+ Plate

Made for speed, this carbon fiber plate delivers a consistent experience for runners with different shoe sizes and builds – the right bending stiffness, with no added weight. And no added waste, thanks to near-zero-waste manufacturing methods.

SpeedVault Trail Plate

Designed for efficient, fast running on technical trails, this Pebax plate's forefront sits close to the ground for optimal forward motion. Its length extends beyond the forefoot to improve performance, and it connects to the big toe for propulsion. Plus, the plate lets the foot articulate, so the shoe goes wherever the runner wants.

SpeedVault+ Trail Plate

A trail-specific carbon-infused Pebax plate with optimal design and geometry for stable propulsion and adaptability on trails to help efficiently sustain momentum.

Segmented Crash Pad

A system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushioning, and create smooth heel-to-toe transitions.

RapidRoll Rocker

The curved sculpting of the heel and toe of the midsole is constructed to actively propel you forward with effortless speed.

GlideRoll™ Rocker

The GlideRoll™ Rocker facilitates a smooth transition forward in each step. It delivers more comfort – keeping some people in their habitual motion path – to help the body do less.

Trail Adapt System

Strategic configuration of zonal pods on the outsole, designed for traction and stability on uneven terrain.

midsole *(continued)*

SUPPORT

Extended Progressive Diagonal Rollbar

An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

GuideRails™ Technology System

An innovative, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

outsole

Ballistic Rock Shield

A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

Blown Rubber

A low-weight rubber compound. We dialed down the density to crank up the responsiveness.

HPR

High-performance rubber, or HPR, is an outsole compound that's abrasion resistant and durable for longer wear.

HydroGrip

This rubber specializes in wet traction geometry, using an optimal mix of high surface area rubber with water drainage channels, helping to provide increased grip adhesion to wet sidewalk and concrete.

RoadTack Rubber

Our do-it-all rubber compound designed for durability, light weight, and rebound. Made using a mix of rubber and recycled silica.

TrailTack Rubber

A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

TrailTack Green

The next generation of TrailTack Rubber, TrailTack Green, includes recycled content and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

Vibram Megagrip Elite

Meticulously designed to provide grip on diverse surfaces and to keep up with race paces. This premium outsole rubber underwent countless hours of testing to ensure optimization for elite performance on race day.

upper

Engineered Mesh

Custom-designed and strategically woven or knit mesh that provides optimal structure and breathability.

Flat Knit

Knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

GORE-TEX® Invisible Fit

An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

MATRYX® Upper

An engineered woven upper with Kevlar fibers for strength and durability and PU-coated yarns for a hydrophobic quality.

OrthoLite® Sockliner

Contoured insert designed to fill any negative space under the foot.

3D Fit Print

An advanced screen-printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Stretch Woven

A lightweight upper construction that wraps the foot for a pliable yet locked-in fit.

TPEE

A durable, abrasion-resistant, hydrophobic fiber used primarily in our Trail upper textiles to help protect the foot from debris.

Ultimate Sockliner

A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

Service is important to us at Brooks. That's why we strive to make FastTrack, our B2B Solution, the best it can be for you!

WITH FASTTRACK, YOU CAN:

- Hide wholesale/discount prices and show your customers what is available in the specifications they want
- Use it via web browser on mobile, desktop, laptop, and more
- Easily place future orders during the seasonal booking window
- See and place MRAs (Brooks Special Make Ups)
- Drop ship an order for a customer anywhere in the state your store(s) are located
- Quickly view LIVE Available to Sell (ATS) inventory for footwear, apparel, bras, and accessories
- View your order status and track your shipments
- Scan barcodes on box labels or app tag to see more product information and place a replenishment/special order
- Use "smart panels" to display what you have coming on order in the next 30, 60, or 90 days
- See what product is on discount, which styles are the top shipped, and more

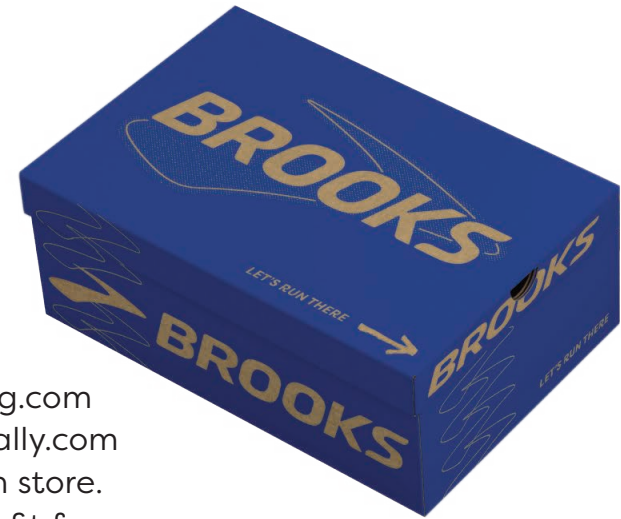

For the best performance, we suggest operating FastTrack on the Chrome browser.

You can also access our world class customer service team (Brooks Runner Experience experts) using Runhappy Retail via runhappyretail@ebrooksrunning.com. Please cc your Brooks sales rep and note your account name, number, and specific inquiry.

LOCALLY

Did you know runners are 4x more likely to do their research on [brooksrunning.com](https://www.brooksrunning.com) and buy in a physical store than they are to finish their purchase online? Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on [brooksrunning.com](https://www.brooksrunning.com). Signing up for Locally can:

INTRODUCE RUNNERS TO YOUR STORE

Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

DRIVE TRAFFIC AND SALES

On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4-6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from [brooksrunning.com](https://www.brooksrunning.com), Facebook, your own site, and Locally.com.

HELP US HIGHLIGHT YOUR STORE

When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.

NEW

Locally now offers same-day delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers same-day delivery with no additional cost. Same-day delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.
