AT A GLANCE	84
SALES REPS	96

Each season is an opportunity to take a step closer to our People and Planet goals. We're excited to share our key highlights toward some of our Climate Action and Sustainable Consumption objectives.

SPRING 2027 FOOTWEAR STATISTICS

- New footwear styles avoided 5.4 million kilograms of greenhouse gas emissions by using recycled materials equivalent to over 9 million miles driven by an average gasoline-powered passenger car
- 99% recycled content in the textile materials of each style, on average
- 31% recycled content in each style, on average, including upper components, midsole, and outsole

INSIDE LOOK

We're on a journey to reduce our environmental impact through thoughtful material choices. One of our key strategies to reduce greenhouse gas emissions is to replace traditional materials with alternatives that contain recycled content. This approach covers the entire shoe, integrating these more sustainable materials into various components, including textiles, upper foams, and rubber outsoles.

GLYCERIN 24

This shoe contains 32% recycled content, which helps reduce greenhouse gas emissions by 0.54 kgCO_2e per pair.

SERIES AND EXPERIENCE PLATFORMS

We organize product to spur exploration and help runners find their ideal experience.

SERIES REPRESENT A CLEAR PRODUCT PROMISE THAT APPLIES TO ALL STYLES WITHIN IT.

GLYCERIN: Ultimate Luxury
Ultimate expression of the smartest and most innovative technology in our line to deliver a premium plush ride.

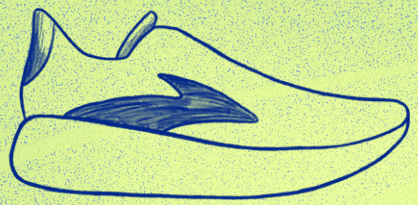

HYPERION: Your Biggest Advantage
Leveraging performance technology to make fast feel easier.

GHOST: The Perfect Blend
Optimizing the combination of footwear technology to bring perfect balance to the run.

REVEL: Gateway to the Run
Drawing on features and design from core Dynamic Cushion to deliver performance product at a more accessible price point.

ADRENALINE GTS: Reliable Structure
Targeted structure that is fine-tuned to provide confidence with each step.

EXPERIENCE PLATFORMS DENOTE A SPECIFIC INTENTION OR FIT TYPE THAT'S APPLIED TO THE SERIES.

GLYCERIN FLEX 2

Tune into your run with revolutionary flexibility and cutting-edge cushioning.

Innovative flexibility

Our thoughtfully designed asymmetrical FlexZone™ technology and unique podular forefoot design provide targeted flexibility and support, helping you tune in and feel the best parts of your run.

Cutting-edge cushioning

Step into the future of comfort with our advanced DNA RISE TUNED cushioning—a lightweight, nitrogen-infused foam optimally tuned with elevated plushness and lively responsiveness, so each step feels surprisingly effortless.

Comfortable, flexible fit

Our newly engineered flat knit upper is designed to flex seamlessly and move with you on your run without distractions. This adaptive material conforms to the unique shape of your foot, while a partially detached tongue allows you to customize the fit to your preferences.

What's New

- DNA RISE TUNED
- More accommodating upper for universal fit

RUN & WALK

GHOST 18

Embrace the run with the perfect blend of cushion, balanced support, and comfort.

Soft and dynamic cushioning

Nitrogen-infused DNA LOFT v3 foam delivers lightweight, soft, and dynamic cushioning with balanced support. Plus, a new Ortholite sockliner provides a soft step and a smooth ride.

Secured and supportive fit

Feel secured and supported with an enhanced upper construction, featuring a flat knit tongue and breathable, triple jacquard engineered mesh to help lock the foot in place.

Refined design

The two-color engineered air mesh provides breathability, and the smooth and flexible flat-knit tongue features a pillowy design to help protect the top of your foot.

More Details

- The outsole features lightweight RoadTack rubber, which is made using a mix of rubber and recycled silica
- Reflectivity on heel collar and lateral heel
- Mini path logo on vamp mesh

RUN & WALK

GHOST 18 GTX

Embrace rainy runs with the perfect blend of cushion, balanced support, and comfort.

Waterproof GORE-TEX® technology

A waterproof GORE-TEX® Invisible Fit membrane is bonded directly to the upper for a lightweight, breathable, flexible fit.

Soft and dynamic cushioning

Embrace your run with premium nitrogen-infused DNA LOFT v3 foam, which delivers lightweight, soft, and dynamic cushioning, plus reliable, balanced support.

Wet traction

The outsole is designed to help improve traction in wet conditions, so you can comfortably run in the rain.

More Details

- Reflectivity on the eyestay and heel

RUN

GHOST AMP

Engineered with responsiveness and forefoot pop to make the run feel energizing.

Amp up your run

Featuring SpringRamp™ forefoot technology designed to help you push off the ground with greater forefoot pop and momentum.

Energizing cushion

Nitrogen-infused DNA HYPE cushioning, a combination of PEBA and EVA, blends softness and responsiveness to pump up the thrill.

Breathable, secure upper

The lightweight warp knit spacer upper is built for breathability, temperature control, and comfort — with structure and lockdown to help secure the foot at high speeds.

More Details

- Lightweight and breathable warp knit spacer upper material
- 6 mm offset
- Gusseted tongue for midfoot lockdown

RUN & WALK

GHOST MAX 4

Soft and protective max cushion with seamless transitions help running feel easy.

Soft and protective cushioning

Nitrogen-infused DNA LOFT v3 cushioning stacked high provides comfort and protection to help lessen the feeling of impact on runs.

Easy, assisted transitions

A low offset and the curved shape of our GlideRoll™ Rocker actively assist your heel-toe transition, helping runs feel easier.

Stable and accommodating fit

A broad base provides inherent stability, plus its ample volume accommodates orthotics and varied foot shapes and sizes.

More Details

- Linear last adds more volume to the shoe for a comfortable, more inclusive fit that also is great when using orthotics

NEW

ADRENALINE GTS 26

Enjoy smooth, dependable comfort and support every step of the way.

Structured support

Experience confident, comfortable strides with our innovative GuideRails™ Technology System. Specifically engineered to provide targeted, structured support, GuideRails™ helps reduce excess movement and allows you to focus on enjoying your run, mile after mile.

Soft and dynamic cushion

Nitrogen-infused DNA LOFT v3 foam offers soft and dynamic cushioning designed for a smooth, steady, and comfortable run—now reengineered for improved cushioning and a dynamic toe-off.

Trusted fit

Our engineered air mesh upper features breathability and a targeted structure to help keep your feet cool and comfortable. The accommodating upper gently conforms to your foot shape for a secure fit, while the new, flexible, and soft flat knit tongue provides top-of-foot comfort.

What's New

- Soft and flexible flat knit tongue for top-of-foot comfort

Crafted to help minimize excess movement, our proven GuideRails™ Technology System is designed to keep excess motion in check for walkers and those seeking daily comfort, whether you're out for a stroll or spending hours on your feet.

Stable base

The new slip-resistant VersiTack rubber and broad base provides a reassuring foundation for your day, so you can feel stable and secure and move with ease.

All-around comfort

DNA LOFT v3 foam delivers comfortable cushioning, while the uniquely constructed upper is crafted with roomy space in the forefoot, ideal for those who use orthotics or require high-volume shoes for specific foot conditions.

What's New

RUN & WALK

BEAST GTS 26

ARIEL GTS 26

Structured support and durable cushioning for a reliable running experience.

GuideRails™ support

GuideRails™ offers structured support that lets you move confidently and comfortably by helping guide you, as needed. This technology, mixed with a broad, stable base, gives the Beast/Ariel GTS 26 its trusted support.

Comfortable and durable cushioning

Nitrogen-infused DNA LOFT v3 provides balanced, adaptable cushioning that's durable and comfortable, with more softness that doesn't detract from support.

Accommodating, secure fit

The modern streamlined upper is designed to offer a generous, roomy fit that accommodates varied foot shapes yet provides the lockdown you need for comfort and zero distractions.

More Details

- Heel pull tab helps with easy on/off
- RoadTack rubber outsole
- Roomy upper allows for use of orthotics

REVEL MAX 2

Run comfortably and confidently with stacked cushion and breathability.

Breathable upper

The lightweight engineered knit upper is designed to provide comfort and breathability throughout your run. The soft material gently hugs your foot, while the open-knit design promotes ventilation, offering breathability and comfort for daily miles.

Stacked comfort

Enjoy high-stacked, lightweight, and comfortable cushioning with every step thanks to our DNA LOFT v2 midsole. The soft and smooth cushion delivers comfort without feeling heavy, making it a perfect choice for any run.

Easy transitions

Our GlideRoll™ Rocker is designed to make each step feel more effortless by gently guiding your foot from heel to toe. It helps smooth out the transition between strides, so each step feels easier.

RACING

HYPERION ELITE 6

Athlete-tested innovation for next-level racing speed and endurance.

Limitless power

Softer, lighter, and more responsive nitrogen-infused DNA GOLD cushioning is made with PEBA and is designed to optimize force production to help give you an advantage. Based on lab testing with athletes, the new carbon fiber SpeedVault+ plate is engineered to help propel you forward faster.

Aggressive propulsion

We modified our propulsion system by increasing the toe spring and angles of the SpeedVault+ plate and updating the RapidRoll™ rocker geometries to help lock up the forefoot, ultimately pushing you forward sooner.

Cutting-edge fit for race day

Experience an ultralight, silky, and fitted upper that offers stretch where you need it. The TPU-coated upper seamlessly connects the shoe to the body to help keep your foot on the platform. The upper is engineered with breathability and reinforcement where needed to reduce layers and excess weight without adding extra parts and pieces.

More Details

- Tested and developed with Brooks-sponsored athletes
- Improved formulation of DNA GOLD is 20% lighter than before
- Carbon SpeedVault+ plate
- 10% more foam than the Hyperion Elite 5

RUN

HYPERION MAX 4

Maximize your training with this lightweight, cushioned and speedy trainer.

Train to the max

A high-stack combination of DNA GOLD and DNA FLASH v2 helps protect you from impact while our nylon SpeedVault plate helps propel you to hit your times.

Quick, easy, assisted transitions

The curved geometry of our RapidRoll™ Rocker actively assists your heel-toe transition to help promote quick, forward turnover.

Breathable, secure upper

The upper is built for breathability, temperature control, and comfort in high-irritation areas. A gusseted tongue helps provide midfoot lockdown with lofted zones for protective comfort.

RACING

HYPERION ELITE LD 2

Athlete-tested, ultra lightweight innovation for next-level long distance racing.

Lighter than air

Feel distraction-free as you step onto nitrogen-infused, 100% PEBA DNA GOLD.

Optimized for speed

Nitrogen-infused foam and a Pebax spike plate that optimizes torsional rigidity are designed to go the distance, propelling you with extra power during mid-race surges or the final kick.

Invisibly connected

Our lightweight, tensile strength knit upper is built with an anatomical athlete last designed to seamlessly disappear on your foot and help you best any competitor on race day.

RACING

HYPERION ELITE MD 2

Athlete-tested innovation for next-level middle distance racing.

Unisex

Power boost

The meticulously engineered, inverted spike plate helps transfer your force on the track into maximized energy return, for propulsive turnover. Our unique plate design features a top-loaded carbon fiber plate and a bottom-loaded Pebax spike plate, which optimize bending stiffness and help give back the energy you transfer with each step, so you can get onto your toes for that final kick or mid-race surge.

Optimized for speed

100% PEBA DNA GOLD nitrogen-infused foam, paired with the propulsive inverted spike plates, help optimize torsional rigidity, to push your speed limits.

Fully connected

Our 100% TPU woven upper is anatomically designed to create the ultimate, locked in fit for any speed on race day.

TRAIL

CASCADIA ELITE

An athlete-validated plated racing shoe for competitive trail runners looking to chase FKTs and podiums.

Float across trails

Designed to sustain speed across the trail thanks to our carbon-infused Pebax SpeedVault+ trail plate sandwiched between layers of DNA GOLD 100% PEBA cushioning. This combination helps you stay controlled as you climb, propel effortless strides on flat surfaces, and enable a smooth and stable ride as you descend.

Vibram Megagrip Elite

Confidently traverse any wet or dry terrain on race day, with a Vibram Megagrip Elite outsole, meticulously designed to provide excellent grip on a variety of surfaces and to keep up with you as you push the pace. This race-ready outsole rubber underwent countless hours of testing to ensure optimization for elite performance.

Ultra performance fit

The dynamically secure MATRYX® engineered woven upper with Kevlar® fibers is designed to hold your foot in place while still being flexible. The PU-coated yarns offer a hydrophobic quality to help water and sweat escape from your shoe and eliminate added weight, so you can avoid distractions and focus on your race.

CASCADIA ELITE LOW

AVAILABLE 03/01/27 | $250

An elite plated racing shoe for competitive trail runners looking to win races.

Ultra Performance Fit

The dynamically secure, MATRYX® engineered woven upper with Kevlar fibers is meticulously designed to hold your foot in place while still being flexible. The PU-coated yarns offer a hydrophobic quality, to help water and sweat escape from your shoe and eliminate added water weight, while the traditional collar and detached tongue allow you to customize your fit, for ultimate comfort.

Vibram Megagrip Elite

Confidently traverse any terrain, wet or dry, on race day with a Vibram Megagrip Elite outsole, meticulously designed to provide grip on diverse surfaces and to keep up with you as you push the pace. This premium outsole rubber underwent countless hours of testing to ensure optimization for elite performance on race day.

Float Across Trails

Designed to sustain speed across the trail with ease thanks to a blend of DNA GOLD 100% PEBA cushioning and a carbon-infused Pebax SpeedVault+ trail plate sandwiched in between the two layers of foam. This combination helps enable control as you climb, propel effortless strides on flat surfaces, and enable smooth stability as you descend, which helps your body recover so you can take on more hills.

TRAIL

NEW

GHOST TRAIL 2

Venture off-road with confidence and familiar comfort.

Reliable comfort

Experience the familiar, stable feel of the fan-favorite Ghost with nitrogen-infused DNA LOFT v3 cushioning, designed to help soften your landings, so you can comfortably take on new trails.

All-terrain traction

The flexible Ghost-inspired outsole and geometry are enhanced with TrailTack Green rubber, which offers excellent traction on wet and dry surfaces. Experience all-terrain traction with 3mm lugs so you can run off-road with confidence.

Trail-ready upper

Our new breathable engineered air mesh upper feels soft against your foot and works harmoniously with 2 lacing ghillies for a secure, locked-in fit. Plus, the 3D-printed toe cap provides essential protection and durability while preserving flexibility.

What's New

- Reengineered air mesh upper

More Details

- TrailTack Green is made with 25% recycled content

WORK

GHOST MAX SLIP RESISTANT

Soft and protective max cushion for all-day wear, with water and oil slip resistance.

Soft and protective cushioning

Nitrogen-infused DNA LOFT v3 cushioning stacked high helps to decrease underfoot pressure for added comfort and protection over long hours on foot.

Water and oil slip resistance

Our slip-resistant outsole features VersiGrip technology, specifically designed for slip resistance on water and oil surfaces. The outsole complies with ASTM 3445-24.

Easy-to-clean leather

Upper features full-grain leather for durability and comfort, plus its smooth finish makes it easy to clean.

More Details

- VersiTack rubber
- Linear last adds more volume to the shoe for a comfortable, more inclusive fit that also is great when using orthotics
- Tested in accordance with ASTM 2913-24
- Non-marking outsole
- 6 mm Ortholite sockliner

TECH TALK Specialized, high-tech features that set our shoes apart.

midsole

MIDSOLE FOAMS

DNA GOLD
DNA GOLD represents our pinnacle performance foam. We are constantly iterating on this foam to deliver the most cutting-edge, performance-oriented formulation, optimized for elite athletes on race day.

DNA RISE TUNED
Our latest cutting-edge, nitrogen-infused foam with optimal tuning capabilities, DNA RISE TUNED features large cells for softness and smaller cells for responsiveness. Plus it's softer, more responsive, and lighter than DNA TUNED.

DNA FLASH v2
A fine-tuned nitrogen-infused midsole cushioning compound that is softer, lighter and has nearly 10% more energy return than the original DNA FLASH.

DNA HYPE
A nitrogen-infused foam featuring a blend of PEBA and EVA for lively responsiveness and just the right amount of softness.

DNA TUNED
The next nitrogen-generation of foam is here. DNA TUNED is infused with nitrogen and features dual-size cell technology — larger cells for softness and smaller cells for responsiveness.

DNA LOFT v3
We fine-tuned the nitrogen infusion process to amplify our soft cushion compound. DNA LOFT v3 boasts optimized softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

DNA LOFT v2
Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam, for a plush feel that won't bottom out or weigh you down.

DNA LOFT
A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT is our soft cushioning engineered for plush comfort without lost responsiveness or durability.

MIDSOLE TECHNOLOGIES

Flex Grooves
Strategic etching underfoot that enhances flexibility, for an effortless forefoot ride without compromising the integrity of the cushioning.

SpeedVault Plate
Built for daily use, this Pebax Rnew® speed plate features optimized stiffness for training. It's designed to propel the runner forward and provide energy return.

SpeedVault+ Plate
Made for speed, this carbon fiber plate delivers a consistent experience for runners with different shoe sizes and builds — the right bending stiffness, with no added weight. And no added waste, thanks to near-zero-waste manufacturing methods.

SpeedVault+ Trail Plate
A trail-specific carbon-infused Pebax plate with optimal design and geometry for stable propulsion and adaptability on trails to help efficiently sustain momentum.

SpringRamp™ Technology
An engineered propulsion zone that offers a firmer platform for more explosive toe-offs.

Segmented Crash Pad
A system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushioning, and create smooth heel-to-toe transitions.

RapidRoll™ Rocker
The curved sculpting of the heel and toe of the midsole is constructed to actively propel you forward with effortless speed.

GlideRoll™ Rocker
The GlideRoll™ Rocker facilitates a smooth transition forward in each step. It delivers more comfort — keeping some people in their habitual motion path — to help the body do less.

TrailAdapt Technology
A set of features that work to provide adaptability on varied terrain, including a wide base of support, flexibility in critical areas, and adaptable lugs.

FlexZone™ Technology
A strategically placed asymmetrical midfoot flex groove that helps provide support at midstance and facilitates a dynamic toe-off.

midsole (continued)

SUPPORT

Structured Support
Featuring GuideRails™ Technology System, an innovative, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

Flexible Support
Midfoot FlexZone™ technology helps facilitate the body's preferred motion path.

Balanced Support
Secure heel with dynamic forefoot provides inherent stability.

Max Support
GlideRoll™ Rocker provides assisted transition from landing to toe-off.

outsole

RoadTack Rubber
Our do-it-all rubber compound designed for durability, light weight, and rebound. Made using a mix of rubber and recycled silica.

TrailTack Rubber
A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

TrailTack Green
The next generation of TrailTack Rubber, TrailTack Green, includes recycled content and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

VersiGrip
Designed for people who work long hours on their feet, this outsole geometry is tuned for wet and oily surfaces.

VersiTack Rubber
A specialized rubber compound engineered for optimized traction and all-around versatility.

Vibram Megagrip Elite
Meticulously designed to provide grip on diverse surfaces and to keep up with race paces. This premium outsole rubber underwent countless hours of testing to ensure optimization for elite performance on race day.

Vibram Megagrip
A high-performance rubber compound by industry-leading Vibram with excellent traction on both wet and dry terrain.

upper

Engineered Mesh
Custom-designed and strategically woven, our knit mesh provides optimal structure and breathability.

Flat Knit
Knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

GORE-TEX® Invisible Fit
An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

MATRYX® Upper
An engineered woven upper with Kevlar fibers for strength and durability and PU-coated yarns for a hydrophobic quality.

OrthoLite® Sockliner
Contoured insert designed to fill any negative space under the foot.

3D Fit Print
An advanced screen printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Stretch Woven
A lightweight upper construction that wraps the foot for a pliable yet locked-in fit.

TPEE
A durable, abrasion-resistant, hydrophobic fiber used primarily in our Trail upper textiles to help protect the foot from debris.

Ultimate Sockliner
A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

FastTrack

BROOKS

Service is important to us at Brooks. That's why we strive to make FastTrack, our B2B Solution, the best it can be for you!

WITH FASTTRACK, YOU CAN:

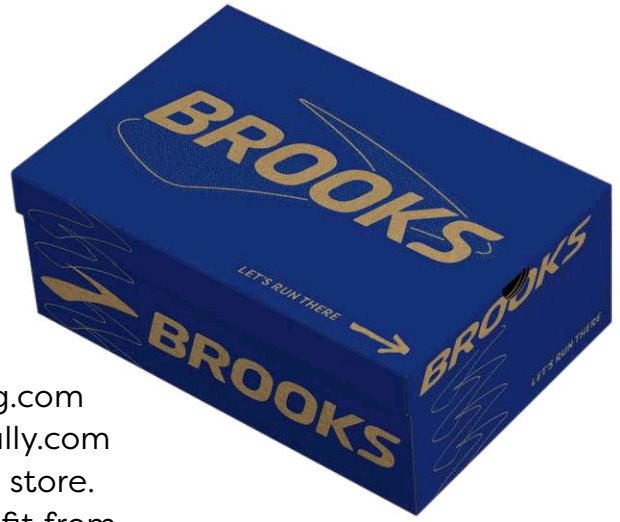

- Hide wholesale/discount prices and show your customers what is available in the specifications they want
- Use it via web browser on mobile, desktop, laptop, and more
- Easily place future orders during the seasonal booking window
- See and place MRAs (Brooks Special Make Ups)
- Drop ship an order for a customer anywhere in the state your store(s) are located
- Quickly view LIVE Available to Sell (ATS) inventory for footwear, apparel, bras, and accessories
- View your order status and track your shipments
- Scan barcodes on box labels or app tag to see more product information and place a replenishment/special order
- Use "smart panels" to display what you have coming on order in the next 30, 60, or 90 days
- See what product is on discount, which styles are the top shipped, and more

For the best performance, we suggest operating FastTrack on the Chrome browser.

You can also access our world-class customer service team (Brooks Runner Experience experts) using Runhappy Retail via **runhappyretail@ebrooksrunning.com**. Please cc your Brooks sales rep and note your account name, number, and specific inquiry.

LOCALLY

Did you know runners are 4x more likely to do their research on brooksrunning.com and buy in a physical store than they are to finish their purchase online? Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on brooksrunning.com. Signing up for Locally can:

INTRODUCE RUNNERS TO YOUR STORE

Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

DRIVE TRAFFIC AND SALES

On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4–6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from brooksrunning.com, Facebook, your own site, and Locally.com.

HELP US HIGHLIGHT YOUR STORE

When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.

NEW

Locally now offers same-day delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers same-day delivery with no additional cost. Same-day delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.
